

14TH INTERNATIONAL CONFERENCE
PSYCHOGERIATRY 2025

STATE OF ART

7-8 MARCH WROCLAW

PSYCHOGERIATRIA 2025. STAN OBECNY I PERSPEKTYWY
ROZWOJOWE
PSYCHOGERIATRY 2025. STATE OF ART AND PERSPECTIVE
DEVELOPMENT

Friday March 7th

09:00-09: 20	Opening: In Memory of Prof. Naomi Hachiya, Tokyo, Japan
	The ceremonial inauguration of the conference and the speeches of the invited guests (representatives of the Medical University Authorities in Wroclaw)
09:20-10:00	Inaugural lecture: A New Era of Medicine with iPS Cells Prof. Shinya Yamanaka (Kyoto, Japan) Nobel Prize Laureat in Medicine and Physiology- 2012)
Session 1 Challenges of Psychogeriatry Session Chair: Prof. Masatoshi Takeda	
10:00-10:30	REMS-loss withdraws protection from neurons in the brain leading to neurodegeneration and associated disorders: role of REMS and noradrenaline Prof. Birendra N.Mallick(New Delhi, India)
10:30-10.50	Cognitive reserve and dementia prevention after introduction of antibody therapeutics. Prof. Masatoshi Takeda (Osaka, Japan)
10:50-11:10	Gut microbiome ,mental health and aging: existing evidence in the field and future directions" Prof. Błażej Misiak (Wroclaw, Poland)
11:10-11:20	Therapeutic Strategies for the treatment of Alzheimer's disease and related neurodegenerative disorders Prof. Khalid Iqbal (New York, USA):
11:20 – 11:45	Discussion
11:45 – 12:00	Coffee break
Session 2 – Prevention in Psychogeriatry Session Chair: Prof. Carlos de Mendonca Lima	

14TH INTERNATIONAL CONFERENCE PSYCHOGERIATRY 2025

STATE OF ART

7-8 MARCH WROCLAW

12:00 – 12:20	How to protect older adults with mental health condition against Human Rights violations? Prof. Carlos de Mendonca Lima (Chair WPA Section of Old Age Psychiatry (Geneva,Switzerland)
12:20-12:40	Therapeutic Strategies for Ischemic Stroke Recovery in Cerebral Amyloidosis. Prof. Michal Toborek (Miami, USA)
12:40 – 13:00	Definition of longevity- start earlier, live longer in good quality. Prof. Maciej Banach (Lodz, Poland)
13:00 – 13:15	Discussion
13:15-14:00	Lunch
Session 3 – Pathogenesis in Psychogeriatry Session Chair: Prof. Keiko Ikemoto	
14:00-14:15	„Al and miRNAs in Neurodegenerative disease diagnosis and prognosis” Prof. Urszula Wojda (Warsaw, Poland)
14:15-14:30	Sex-differences of peripheral immune cells activity in Alzheimer’s disease patients. Prof. Marta Sochocka, (Wroclaw, Poland)
14:30-14:45	How to see Alzheimer’s disease in patients’ eyes? Prof. Radosław Kaczmarek(Wroclaw, Poland
14:45 – 15:10	The potential contribution of food components to the prevention of Parkinson’s disease. Prof. Akiko Kojima-Yuasa (Osaka ,Japan
15:10-15:30	Beta-phenylethylamine(PEA) neuronal system is equivalent to D-neuron(trace amine neuron, type 1) system and TAAR1 ligand neuron system: What does it mean? Prof. Keiko Ikemoto (Tokyo, Japan)
15:30-15:45	Discussion
Session 4 Therapy in Psychogeriatry Session chair: Prof. Vecsei Laszlo’	
15:45-16:00	Kynurenines and neurodegeneration: therapeutic consideration Prof. Vecsei Laszlo (Szeged. Hungary
16:00-16:15	Dementia and Suicide Prof. Barbara Schneider (Koln, Germany):
16:15-16:30	Depression and frailty: a detrimental Combo to older adults

14TH INTERNATIONAL CONFERENCE PSYCHOGERIATRY 2025

STATE OF ART

7-8 MARCH WROCLAW

	Prof. Breno S. Diniz (Connecticut, USA)
16:30-16:45	Autophagy stimulation by genistein as a potential therapy for Alzheimer's disease Prof. Grzegorz Węgrzyn (Gdansk, Poland)
16:45-17:00	Causes of depression in old age. Prof. Piotr Galecki (Lodz, Poland)
17:00-17:15	Discussion
17:15-17:30	Coffee break
Session 5 Main actors in Psychogeriatry Session chair: Prof. Gabriela Stoppe	
17:30-17:45	Challenges in mental health of Ukrainians caused by war and migration Prof. Viktoria Tkachenko (Kyiv, Ukraine)
17:45-18:00	Mental health and forced migration Prof. Cornelius Katona (United Kingdom)

18:15-18:30	Suicide prevention in old age and the problem of assisted suicide Prof. Gabriela Stoppe (Chair of the Section of Old Age Psychiatry Basel, Switzeland)
18:30-18:45	Landscape design as a support for psychogeriatric- current status, perspectives and challenges Dr Anna Wasilewska (Wroclaw, Poland)
18:45- 19.00	Discussion
End of the first day of the conference	

14TH INTERNATIONAL CONFERENCE PSYCHOGERIATRY 2025

STATE OF ART

7-8 MARCH WROCLAW

Saturday March 8 th

Session 6 - Ageing and Psychogeriatry	
Session Chair: Prof. Claudia Jacova	
09:00 09:30	Subjective Cognitive Decline at the intersection of aging and neurodegenerative disease. Prof. Claudia Jacova (Canada)
09:30 09:45	Chronic pain in the elderly- a constant challenge. Prof. Małgorzata Sobieszkańska (Wrocław Poland):
09:45 10:00	The role of Tau protein in the etiopathogenesis of degenerative disorders Dr Mikołaj Hurła (Poznan,Poland)
10:00 10:15	Late-onset multiple sclerosis. Dr Justyna Chojdak-Łukasiewicz (Wrocław, Poland)
10:15 10:30	Circadian rhythms and transcranial direct current stimulation(tDCS) effects- theoretical and practical considerations Mgr James Chmiel (Szczecin, Poland)
10:30 10:45	Discussion
10:45- 11:00	Coffee break
Session 7 - Dementia in Psychogeriatry	
Session Chair: Prof. Dorota Religa	
11:00- 11:20	The unexpected role of oxygen in Alzheimer's disease Prof. Arturo Solis Herrera (Mexico):
11:20- 11:35	Diagnosis and treatment of sarcopenia in the elderly: the road to the future. Dr Iwona Orłowska (Wrocław, Poland)
11:35- 11:55	Behavioral and psychological symptoms of dementia in different dementia disorders: A large-scale study of 12 000 individuals. Prof. Dorota Religa (Karolinska Institutet, Sweden)
11:55 12:15	Perspective of new biomarkers determination in Alzheimer's disease Prof. Andrzej Gamian (Wrocław, Poland)

14TH INTERNATIONAL CONFERENCE
PSYCHOGERIATRY 2025

STATE OF ART

7-8 MARCH WROCLAW

12:15-12:30	Glymphatic and meningeal lymphatic systems in neurological diseases. Dr Angelika Chachaj (Wroclaw, Poland)
12:30-12:45	Association between Female Reproductive Factors and Risk of Dementia Dr. Magdalena Pszczołowska (Wroclaw, Poland)
12:45-13:00	Discussion
13:00-14:00	Lunch
Session 8 - Psychogeriatry- perspectives of diagnosis and treatment	
Session chair: Prof. Donata Kurpas	
14:00-14:30	The molecular basis of neuronal connectivity stability in the adult brain and its potential implications for the aging brain Prof. Jacek Jaworski (Warsaw, Poland)
14:30-14:45	Preliminary Findings from the SAPIENCE Project: Insights from Caregivers of NMDAR Encephalitis Patients Prof. Donata Kurpas , (Wroclaw, Poland)
14:45-15:00	Application of stem cells to treat the treatment of strokes and other brain disorders Prof. Wojciech Maksymowicz (Olsztyn, Poland)
15:00-15:15	Amyloid Plaque in Alzheimer's disease- Injury or Protection? Prof. Norbert Muller (Munich, Germany)
15:15-15:30	Discussion
15:30	End of the second day of conference
